The Mammals of the Southern African Sub-region J. D. Skinner, Christian T. Chimimba, 2005-11-15 This comprehensive volume covers all mammals that occur naturally on the African mainland south of the Cunene and Zambezi rivers and also in the subregion's coastal waters Extensively revised and updated for the new edition it now includes the latest data from mammal research in southern Africa along with the radical taxonomic changes across all levels of mammalian classification Containing contributions from specialists on each mammalian order each species description has been reviewed by a range of independent and internationally recognised authorities Along with the latest taxonomic information the distribution maps and illustrations have been updated and redrawn several new colour plates have been added and the whole design has been enhanced to aid access to key information This is the most comprehensive and up to date survey of southern African mammals and forms an essential reference for zoologists evolutionary biologists and anyone wanting an overview of the region's wildlife

Smithers' Mammals of Southern Africa Peter Apps, 1996 Based on Reay Smithers original work Land Mammals of Southern Africa this revised and expanded field guide to Southern African mammals is intended for the general reader as well as the wildlife enthusiast The Kingdon Field Guide to African Mammals Jonathan Kingdon, 2013-01-31 This ebook is the complete guide to the mammal fauna of Africa Optimised for iPad this guide will enable identification of all 460 land mammals likely to be seen anywhere in Africa Detailed accounts with colour illustrations are provided for most species but some complex small mammal groups are summarized by genera The

colour illustrations show both sexes in sexually dimorphic species and there are also a wealth of line drawings illustrating typical behaviours the function of camouflaged or disruptive markings and the details of interspecific variation among closely allied species Fully zoomable distribution maps show the ranges of most species covered Heading to any part of Africa Don't leave home without this indispensable guide **The Wildlife of Southern Africa** Vincent Carruthers, 2017-02-06 A field guide to the wildlife of southern Africa describing over 2 000 plants and animals with accurate illustrations in full colour This book has been a trusted field companion for many years Comprehensively updated it now features range maps for most groups The chapters are colour coded for easy reference and diagnostic features appear in bold type within the descriptions Each chapter is written by a leading expert in the field All the main plant and animal groups are covered Lower invertebrates Spiders and other arachnids Insects Freshwater fishes Frogs Reptiles Birds Mammals Grasses sedges ferns and fungi Wild flowers Trees Sasol First Field Guide to Mammals of Southern Africa Sean Fraser, 2015-01-09 Sasol First Field Guide to Mammals of Southern Africa provides fascinating insight into the wild animals of the region Through full colour photographs and distribution maps and easy to read text the beginner and budding naturalist will be able to identify the more common mammal species found in southern Africa discover where they live and learn about their unique feeding and breeding habits

Pocket Guide to Mammals of East Africa Chris Stuart, 2013-08-22 East Africa comprises a range of habitats that provide living space for more than 360 diverse species of mammal These vary in size from the massive elephant to the tiniest bats shrews and mice This compact guide covers all of the common and some of the less common mammal species of the region For each species it offers key identification features behaviour diet breeding biology occurrence and size clear full colour photographs track illustrations silhouettes to indicate size relative to human figure distribution map A section on droppings dung of many of the animals as well as that of relative tracks conclude the book Compact and easy to use this is the ideal companion both for regulars and visitors to the region **The Kingdon Pocket Guide to African Mammals** Jonathan Kingdon, 2020-09-17 The essential mammal guide to take on safari covering every African land mammal Originally published in 2004 the Kingdon Pocket Guide to African Mammals quickly became the field guide of choice to take on African safaris Its compact format makes it ideal for use in the field while its coverage is the most comprehensive currently possible in this format Adapted from the Kingdon Field Guide to African Mammals the greatly condensed text focuses on essential information such as identification and distribution while the author's superb illustrations have been rearranged into an easy to use plate format and placed opposite the text Complex and more obscure groups like the bats and certain rodent families are summarised by genera Over 500 maps plot the distribution of all larger species and for smaller mammals the maps show distribution by genus This is a completely revised second edition of this popular guide The information and taxonomy have been updated to follow the newly published second edition of the Kingdon Field Guide to African Mammals 2015 and this new edition of the pocket guide contains several new species and illustrations The maps have been completely replaced and there

are now 200 more maps than in the original edition The Mammal Guide of Southern Africa Burger Cillié, 2004 With colour photos distribution maps spoor and photos of faeces and an identification key **Chris and Tilde Stuart's Field Guide to the Mammals of Southern Africa** Chris Stuart, 1988 *The Kingdon Field Guide to African Mammals* Jonathan Kingdon, 2015-04-23 This is the definitive field guide to African Mammals fully revised and updated following the publication of the groundbreaking *Mammals of Africa* 2013 Jonathan Kingdon one of the world's foremost authorities on African mammals has both written and illustrated this landmark field guide The unique combination of his extensive field experience and artistic talent has produced a stunning work that sets new standards The concise text provides full information on identification distribution ecology relationships and conservation status with introductory profiles that summarise the characteristics of each mammal group All known species of African land mammal are covered with coverage of several of the more complex groups of small mammals simplified by reference to genera Classification has been fully updated and this new edition includes many newly recognised species With over 780 colour illustrations numerous line drawings and more than 520 maps this book will be an essential companion to anyone visiting Africa or with an interest in the mammals of the continent **A Field Guide to the Mammals** William Henry Burt, 1976 Provides information about mammals in North America and north of Mexico **A Field Guide to the Larger Mammals of Africa** Jean Dorst, Pierre Dandelot, 1970

Southern, Central, and East African Mammals Chris Stuart, Tilde Stuart, 2002-08 The guide has key identification features showing how to differentiate between similar species and distribution maps and a list of major parks and reserves

Field Guide to Mammals of Southern Africa Chris Stuart, Tilde Stuart, 2001 Southern Africa has a wealth of mammal species a total of 337 all of which are covered in this fully revised comprehensive field guide While the term African mammals conjures up the more celebrated species of elephant lion buffalo leopard and rhino it is in fact the smaller animals shrews genets suricates and bats that comprise the bulk of the region's mammal species And often overlooked but included here too is the diversity of marine mammals seals whales and dolphins that are found in our oceans This new edition of *Field Guide to Mammals of Southern Africa* has been extensively revised to include the most recent research in line with new findings and new taxonomy Up to date information revised distribution maps and new images where available have been combined in a modern full color layout Color coding has been introduced according family groupings and spoor and size icons are included for quick reference with each mammal entry Another new feature is the inclusion of skulls grouped at the back of the book for easy comparison In addition to detailed descriptions of each species the text offers insight into key identification characters typical behavior preferred habitat food choice and reproduction *Mammals of Southern Africa and Their Tracks & Signs* Lee Gutteridge, Louis Liebenberg, 2013 Tracking is a much loved yet difficult subject that attracts at least some of the attention of almost every bush goer who ventures into the wild places of southern Africa The ability to accurately read difficult partial or little seen signs left in the soil or sand is rare and largely the domain of professionals

However by making use of this comprehensive guide anyone who applies him or herself can begin to decipher these natural hieroglyphs etched on the ground In this volume highly accurate sketches of animal tracks are combined with a wide selection of extremely varied photographs that provide an all round impression of the signs the animals may leave behind This field guide to mammal tracks and signs also serves as an ID guide to the mammals of southern Africa as full color photographs of each animal are included

Field Guide to African Mammals Jonathan Kingdon, 2015-04-23 Jonathan Kingdon one of the world's foremost authorities on African mammals has both written and illustrated this landmark field guide The unique combination of his extensive field experience and artistic talent has produced a stunning work that sets new standards The concise text provides full information on identification distribution ecology relationships and conservation status with introductory profiles that summarise the characteristics of each mammal group All known species of African land mammal are covered with coverage of several of the more complex groups of small mammals simplified by reference to genera Classification has been fully updated and this new edition includes many newly recognised species With over 780 colour illustrations numerous line drawings and more than 520 maps this book will be an essential companion to anyone visiting Africa or with an interest in the mammals of the continent

Competition note There are regional mammal books covering southern Africa for example but none that covers the whole continent in a portable format The smaller format and more concise Kingdon Pocket Guide to African Mammals may be more appealing to a more general safari market but is much less comprehensive and more out of date

Sasol First Field Guide to Spiders & Scorpions of Southern Africa Tracey Hawthorne, 2014-06-04 Sasol First Field Guide to Spiders Scorpions of Southern Africa provides fascinating insight into the arachnids of the region Through full colour photographs and easy to read text the young adult and budding naturalist will be able to identify the more common species found in southern Africa discover where they live and learn about their unique habits

Field Guide to the Mammals of South-east Asia (2nd Edition) Charles Francis, 2019-06-27 A fully revised and updated second edition of the only comprehensive guide to the mammals of South east Asia From large mammals such as the elephant bears big cats dolphins and whales to monkeys and badgers to bats civets rats and shrews South east Asia is one of the world's richest regions in terms of mammal diversity Species new to science are still being described regularly though there is increasing pressure on all of its wild mammal populations More than 550 species are covered in this comprehensive guide Each species account includes key identification characteristics habitat behaviour distribution and status and many are accompanied by line drawings of footprints and details of anatomy or other aspects of identification Beautiful colour plates depict nearly all species and their variations while accompanying range maps provide up to date information on distribution This field guide is essential for any naturalist or traveller visiting this special corner of Asia
